

Active Living
January 9, 2018
YMCA
1:30 p.m. – 2:30 p.m.

In Attendance: Ray Jobe, Anna Amundson, Chad Buggert and Sara Ferkul

The group began by reviewing the youth survey. And what the distribution plan will be. Anna will be reaching out to Parkview, Roosevelt and Mountain Iron-Buhl schools. In the past the YMCA has had luck with these schools with distribution of information to the students. We will be putting a return date of January 31. Anna will collect the surveys from the students and Sara will input the information into the online survey link so we can have all of the information in one report of the findings.

The City of Virginia has applied for a grant so they can map out walking paths throughout the city. We have talked about adding additional signage for areas that children may be crossing. Ray and Chad will be speaking with Britt from the City of Virginia and the Virginia Community Lakes Committee about some of the questions that we have discussed, including additional bathrooms, and building usage for inclement weather either at the site or in Olcott Park.

Anna will be speaking with Beth Peterson about the AEOA kids ride free initiative. If they are still offering this service we would like to include it on the flyer that the families will receive. We also discussed distributing the flyer to the WIC office.

Sara will be looking into having WA. Fisher create the flyer for the program.

We will be discussing all of the findings at our next meeting. We will also begin to build the month of activities based on what the kids want. We will also put information for the flyer together and create a distribution plan for when the flyer is completed.

Next Meeting:

February 5, 2018
YMCA
10:00 a.m. – 11:00 a.m.
